UC Berkeley | May 2016
BA Economics, GPA 3.73

EXPERIENCE

UX Designer

UW Food Rescue Website | Sept 2017 - Present

» Currently collaborating with designers and developers to design and build a web platform to pair-up UW campus dining facility with local non-profits for food recovery efforts. Interviewed 60+ organizations for feasibility study and prototyped web dashboards.

Product Marketing Specialist

Streamlyzer | Feb 2016 - May 2017

» Spearheaded company's website redesign by redefining navigation, information architecture, content strategy, and visual layout. Increased website traffic by 98% and decreased bounce rate by 13%.

» Improved web dashboard user flow and data-visualization elements working with two developers and one designer.

» Generated visual and written content for blog and marketing campaigns. Achieved 3950+ blog views in the first five months of blog launch.

Marketing Strategy Intern

SK Communications | Jun 2013 - Aug 2013

» Achieved 17% increase in mobile app downloads in just three days by launching OOH (outdoor) ad in Korea subway stations; collaborated with ad agency and design team to coordinate the advertisement.

» Developed a go-to-market strategy for the new facial recognition feature by conducting competitive analysis.

PROJECTS

Slice | Nov 2017 - Dec 2017

» A mobile app that reinvents billing process at a restaurant by allowing users to split and pay bills without waiter interaction. I initiated this side project with my peers to explore improving dining experiences.

Racoonz | Sept 2017 - Dec 2017

» A mobile app designed to provide users quick access to information about proper waste disposal in Seattle. I served as the sole UX/UI designer on the team.
